Federal Election Commission
999 E Street NW
Washington, DC 20463

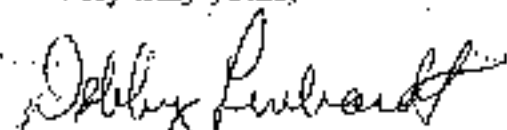

ID#: C00236513
Ref: October Quarterly Report
(8/27/98 - 9/30/98)

Dear Mr. Young:

This letter is in response to your recent inquiry.

1. The volunteer that entered the contribution of Anita Saltz into the October Quarterly Report entered the information incorrectly. Instead of entering the name of the signatory on the check and the date the committee received the check, they entered the top name on the check and the date the check was written. The information that appeared on the 48 hour notice was correct. I am attaching a copy of the original check for your information. Under separate cover an amended report will be sent to the FEC.
2. As to the contributions by Steven Bick. The September 11, 1998 contribution should have appeared as a General Election contribution. The Primary designation was in error. We are attempting to find out why the software program did not catch this error. The amended report will correct this error as to designation.
3. As to the 48 hour notices, a review of our records shows that all last minute contributions were submitted to the FEC on a timely basis. We did find several instances where the volunteer used the date on the check rather than the date the check was received when doing the Quarterly report. As noted above an amended report will be submitted to the FEC.

Very truly yours,

Debby Linhardt
